The Greatest of All Roses American Beauty

(As Illustrated On Front Cover.)

This Rose has become as famous as the Marechal Niel. The flowers of this grand Rose are so eagerly sought that they sell in the flower stores of the larger cities during the holiday season at the extravagant price of from \$1.50 to \$2.00 for a single bud or flower. Indeed, the market is never fully supplied with them, even at this high price. Why is this? There must be a reason. It is because of its large size, rich color and delicious fragrance. It is a hardy Rose, of the largest size, having the ever-blooming qualities of the Tea Rose, with the delicious odor of the Damask, or Moss Rose. It is the sweetest of all Roses. In color it is a deep, brilliant red, shading to a rich carmine-crimson. It is entirely hardy, and is a valuable Rose for the garden or indoor culture, flowering freely during the winter. American Beauty is like Marechal Niel—difficult to start from small plants; there fore, we advise our customers to buy strong plants of it. This Rose will never be sold cheaply, for the reason it is hard to propagate. It can only be rooted with success during winter. Small plants of this variety have not proved satisfactory, so that we only offer two year size. **Price, nice, medium two-year plants, 25 cents each. Strong two-year plants, 50 cents each.**

The Ever-blooming Collection Six Superb Roses

FOR 50 CENTS

(Illustrated on Back of Cover.)

For diversity of color, freedom of bloom, fine growth and hardiness, we doubt if it has ever been equaled and the price makes it within the reach of all who desire a beautiful collection of Roses.

THE QUEEN.—It is pure snow-white, makes good, finely formed buds, is quite full, showing the center but slightly when fully open. The petals are thick and of good substance, opens well, is very sweet, and has proved valuable, both for forcing and open ground planting. We recommend it for extended trial, as it will be found a valuable acquisition to our list of pure white ever-blooming Roses.

MAMAN COCHET.—It is a vigorous grower with beautiful foliage. In bud it resembles the Mermet family, being long and shapely, borne on long, stiff stems. It is of the largest size, and the flower is built up or rounded, and very double. The color is a deep rose pink, the inner side of the petals being a silver-rose, shading and touched with golden yellow.

MADAME PIERRE GUILLOT.—The most attractive and showy Tea Rose of recent introduction. It throws up numerous strong shoots, terminating in buds that for beauty surpass many famous Roses. The buds are large, very double, creamy-white, each petal heavily bordered with bright rose.

PERNET'S TRIUMPH.—The flowers are extra large, having broad, thick petals, and long, tapering buds, with delicious tea fragrance. Color a fine, clear magenta-red, sometimes passing to a bright crimson. Very striking and beautiful, and of such good substance that the flowers retain their beauty for a long time.

NEW ROSE, BESSIE BROWN.—This new Rose is considered one of the finest of the Roses of late introduction, and is well worthy the place it occupies among Roses. It is of the Hybrid Tea class and will stand frost if slightly protected. Blooms are of enormous size, of heavy substance, and are perfect in shape, lasting splendidly when cut. The color is snowy-white, faintly flushed and tinged with pink. A fine, strong, free grower.

THE YELLOW COCHET, MME. MATRAT.—A pure Tea Rose, very free growing and hardy in character, withstanding ten degrees below zero if protected. The color is a good sulphur-yellow, blooms very large, perfectly double, splendid form and freely produced

THE ORIENTAL Chrysanthemum Set

(As Illustrated on Second Page of Cover.)

SIX OF THE NEWEST AND BEST FOR 50c.

1—WM. DUCKHAM.—The sensational variety of the year. Color a deep, clear pink, much darker shade than any other listed. Incurved with a broad petal. The flower is very large, measuring 9 inches in diameter and supported by a long stiff stem with good foliage. An exceedingly strong grower.

2—NELLIE POCKETT.—This grand new Chrysanthemum, which originated in Australia, is a beauty. It is an early white variety of mammoth size and of the most artistic form and finish. Flower is creamy white, with long drooping florets curling to the tips, making a solid, compact bloom of the most graceful and lovely form.

3—ROBT. HALLIDAY.—Is still near the top of the list of early yellows; it has taken several years to show its possibilities, but this variety has attained wide popularity, and deservedly so; it is indispensable; very large, when well done.

4—INTENSITY.—The flowers are of massive size, reflexed, with broad, stiff petals; color deep, rich, velvety crimson, with no shade of brown or chestnut. Flowers borne on strong, stiff stems. They grow close up to the flowers, which gives the plant an elegant appearance.

5—ALICE BYRON.—This is a magnificent variety, with every good quality. For size, finish and purity of color it leaves little to be desired. Color, purest white, with clear, smooth florets. In some stages it resembles Mrs. H. Weeks, but as the florets expand, the whole fall back and form into a deep, solid bloom. This will be found an extraordinarily fine exhibition variety.

6—MRS. GEO. F. BAER.—The yellow sport from Mrs. Jerome Jones. The color is good, and it fully equals its parent in all other essential points, an easy grower, medium height and good foliage.

The Above Splendid Collection of Chrysanthemums for 50 Cents.

THE FRAGRANT Carnation Set

(As Illustrated on Third Page of Cover.)

PRICE 50 CENTS

1—ENCHANTRESS.—A very pleasing shade of light pink, deepening towards the center. When fully developed, over 4 inches in diameter; very attractive and fine form. Stem is strong and stiff; both out of doors and in the house the growth is ideal; very healthy and of vigorous constitution.

2—JUDGE HINSDALE.—A variegated variety of a type unlike any of the striped sorts. The white and pink are about evenly divided. A large flower, of good form, fragrant, and a splendid keeper. Long stems and a strong, vigorous habit.

3—FLAMINGO.—As an early flowering variety it has proven satisfactory with some and we believe it has a future, being superior in some ways to the standard red varieties we are growing at the present time. **Color**—Brilliant scarlet. **Form**—Round and full. **Stem**—Strong and of good length. **Calyx**—Does not burst. **Fragrance**—Clove.

4—QUEEN LOUISE.—Flower pure white, fragrant, large, 3 inches and over. Center well filled, rounding the flower to a most pleasing form. The color is very pure, stem exceptionally long, grass fine and crisp, with plenty of bloom, and it is an excellent producer.

5—DOROTHY WHITNEY.—Deep yellow ground, irregularly edged with faint markings of light pink; a large, well-formed flower, with high, well-built center; the most perfect form among yellows of the commercial class. Very free, continuous and early.

6—THE NEW CRIMSON, ROOSEVELT.—One of the very finest of dark velvety crimsons. Strong, vigorous and healthy habit. Flowers are of large size, very full and deeply fringed, with a good calyx, never bursting. The color is rich, brilliant and without the slightest tendency to turn black. A free bloomer long stiff stem, and just the variety when a crimson is wanted.

INTRODUCTION

TO OUR FRIENDS AND PATRONS:—

SPRINGFIELD, OHIO, 1906.

A GAIN we have the pleasure of greeting our many customers through the medium of this catalogue, which we have endeavored to improve over all past issues. It is now nearly forty years since the business was established and during these years our products have found their way into every State and Territory and into many foreign countries. Years of experience in packing plants have resulted in methods which insure the safe arrival, and our facilities for handling the large volume of business we receive are so complete that even during the busiest months we can make prompt deliveries. We promise you the finest stock that can be grown, the largest assortment and best service. We trust this catalogue will be found pleasing, comprehensive and helpful. We shall hope for a continuance of the generous patronage received in the past, and solicit orders from those who receive this catalogue and who have not yet favored us with an order.

With assurances that all orders and communications shall have our most careful, conscientious and prompt attention, we invite perusal of the following pages.

Respectfully,

MCGREGOR BROS. CO.

FRANK MCGREGOR, President.

ROY MCGREGOR, Secretary.

DAVID MCGREGOR, Vice-President.

ALLAN MCGREGOR, Treasurer.

HAROLD MCGREGOR, Manager.

We respectfully call your attention to the following Directions, which will be an aid to Purchasers as well as ourselves.

ORDER EARLY It will greatly facilitate shipments if orders are sent in **early**. We aim to send off all orders the same or next day after receipt, but during the busy season it is nearly impossible—hence the advisability of ordering early.

GUARANTEE We guarantee all Shrubs, Plants, Bulbs and Seeds that we send out to be first class, true to name, and to reach purchasers in good condition when forwarded by mail or express. After goods are delivered to purchaser our responsibility ends. Most failures with Plants, Bulbs and Seeds are due to soil conditions, unfavorable weather and other causes which are entirely beyond our control, rendering it impossible to guarantee success, and although we take all possible care to send out only such goods as will, under proper conditions, give satisfactory results, we do not guarantee stock to grow, the crop, or guarantee results in any way, and we can not entertain complaints that are not made immediately on receipt of goods.

ERRORS We exercise the utmost care in filling orders, striving to do a little more than we offer; yet in the press of business, errors sometimes occur, in which event we wish to be promptly notified of the fact and will make such corrections as will be satisfactory. Please keep copies of all your orders for comparison.

PLANTS BY EXPRESS We always recommend having plants sent by express, where there are many ordered, and when there is an express office near, as we can usually send much larger plants, and do not have to wash the soil off the roots, as is the case when sent by mail. We are now using a light but strong corrugated box, which lessens the weight of a shipment, thereby reducing the charges. Plants packed in this manner will carry nicely for a great distance and keep for a week or ten days in a fresh condition. Purchaser pays charges.

PREMIUM.—20 per cent. additional (you may select 20 per cent. extra) will be allowed on all orders (at single plant and packet prices) amounting to \$1.00 or more. This discount does not apply on special offers, bargain offers or collections.

We can not accept Canada or Mexican silver or paper money.

LOW PLANT EXPRESS RATE By special arrangement with the Express Companies, all plants are carried at a reduction of 20 per cent. from the regular merchandise rate.

PLANTS BY MAIL When plants are ordered by mail we prepay postage delivering the plants free of all expense to any Postoffice in the United States.

HOW TO REMIT —POSTOFFICE ORDER. The safest and most convenient way of transmitting money from one point to another is by means of postoffice orders; if these are lost, a duplicate can easily be obtained, and there is no danger of their being stolen, for no one can obtain money on them except the person to whom they are addressed. They can be obtained at most postoffices, but not all. The fee is but 5 cents for \$5.00 and under.

CASH WITH ORDER Please send money with the order sufficient to cover the whole bill, to facilitate the execution of your orders. During the busy season, to make out bills for customers, charge and in a few days receive the money, make the proper credit and send receipt, requires more work than we can readily perform. We decline sending goods "Collect on delivery," unless remittances be made on account to guarantee acceptance.

LOOSE MONEY enclosed in the letter is at the risk of the sender.

POSTAGE STAMPS These can be sent for fractional parts of one dollar or where postoffice order cannot be had, provided a two-cent stamp extra is sent with every remittance. None but stamps in perfect order accepted.

ROSES . = ROSES

The Rose, which has been well named the "Queen of Flowers," always has ranked first among the many families of plants we grow. We are now devoting half of our entire space to supply the wholesale demand for this generally loved and appreciated flower. Springfield is well known as a center for the Rose, and is now growing and distributing more than any other city in the United States.

Mme. Matrat.

THE THREE COCHETS

The Yellow Cochet

MME. MATRAT

A pure Tea Rose, very free growing and hardy in character, withstanding ten degrees below zero if protected. The color is a good sulphur-yellow, blooms large, perfectly double, splendid form and freely colored. It has every quality necessary to make the ideal yellow bedder ranking with the White and Pink Coquets in value as a summer Rose. Price, 15c each; two-year-old plants, 40c.

The Beautiful White Forcing Rose,
WHITE MAMAN COCHET

The finest Rose of the year. Like its parent, the growth is vigorous, with rich, healthy foliage, producing large, fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet. Price, 15c each; large two-year-old plants, 35c.

Forcing Rose,
MAMAN COCHET

One of the best new Roses. The growth is vigorous, with rich, healthy foliage. The extra large flowers are produced on long stems, are very double, and the buds and half expanded flowers are simply exquisite in their graceful form, delicate color and rich fragrance. The color is deep rose-pink. Price, 15c each; large two-year-old plants, 40c.

KAISERIN AUGUSTA VICTORIA

This beautiful Rose has not only a royal name, but is a royal Rose as well. We have white Roses that have elegant buds, but when full blown are not all that is desired. This Rose combines both these good qualities. Color a pure snowy white. Price, 15c; two-year-old, 35c.

Souv. De Pierre Notting.

SOUV. DE PIERRE NOTTING (Tea)

This variety is a seedling of M. Niel and Maman Cochet, with beautiful closely set foliage and a strong, sturdy habit of growth. Color orange-yellow, bordered in carmine-rose. Promises to prove very popular. Has received not less than six gold medals and prizes. Price, 15c each; large two-year-old plants, 30c each.

IVORY

The White Sport of Golden Gate.

Ivory is a "sport" from the fine old variety, Golden Gate, which today is probably the freest flowering Rose of its type in cultivation, but which unfortunately lacks in decided color. Ivory embodies all the good points of its parent—size, freedom of bloom, strong, vigorous, healthy growth, with a pure white color which makes it an invaluable acquisition to the list of forcing Roses. Price, 15c each; large two-year-old plants, 30c.

MRS. B. R. CANT

A fine garden variety, of even shade of salmon-rose, round and full, the form of a good H. P. A very free grower and free bloomer. It flowers as continuously and as freely as a China Rose, and is especially fine in autumn. A splendid addition to our standard bedders. Price, 15c each; large two-year-old plants, 35c.

PERNET'S TRIUMPH

The flowers are extra large, having broad, thick petals, and long, tapering buds, with delicious tea fragrance. Color a fine, clear magenta-red, sometimes passing to a bright crimson. Price, 15c each; large two-year-old plants, 35c.

NEW ROSE BESSIE BROWN.

This new Rose is considered one of the finest of the Roses of late introduction, and is well worthy the place it occupies among Roses. It is the Hybrid Tea class and will stand frost if slightly protected. Blooms are of enormous size, of heavy substance and are perfect in shape, lasting splendidly when cut. The color is snow white, faintly flushed and tinged with pink. A fine, strong, free grower, producing long stems, well clothed in foliage quite up to the flower. Price, 20c; two-year-old, 40c.

LADY MARY CORY.

This new Rose is exceptionally fine for outdoor bedding. Growth vigorous and of erect, branching habit. A beautiful Rose of the most exquisite color, which is a deep, golden yellow. Blooms of good size, freely produced and perfectly formed. A very fine variety to add to the much wanted yellow varieties. Price, 20c; two-year-old plants, 40c.

LADY BATTERSEA.

This new Rose is considered by many Rose fanciers to be the finest variety of 1902 introduction. It belongs to the new British Roses and has received many honors at the English exhibitions. It has long oval buds, sharply pointed, very striking in form; the color is bright cherry crimson; the stems are stiff and extremely long for a red Rose; a vigorous grower, not very full, but an unusually showy variety. The only Rose approaching Niphetos in form. Lady Battersea belongs to the Hybrid Tea class, and if protected with evergreen boughs or straw, it can be left in the ground all winter without danger. Do not omit this valuable Rose from your list. Price, 25c each; two-year-old plants, 35 cents.

THE RICHMOND.

This Rose is the newest and best red Rose yet introduced. It is as free a bloomer as Bride or Bridesmaid; with four long stems. Its color is of a gorgeous scarlet crimson. Price, 20c each; large two-year-old plants, 50c.

ELISE HEYMANN.

This is, beyond question, one of the best of recent European introductions. We have given it a trial, and find it to be of unusual merit. It blooms with astonishing freedom, bearing its large, globular flowers in immense clusters. The color is light yellow, shaded with nankeen yellow, center rosy peach. Very free flowering. Vigorous growth, fine foliage and highly valuable, both in pots for late autumn and winter blooming as well as for general planting in the open ground during summer. We recommend it as one of the very finest Tea Roses. Price, 20c each; two-year-old plants, 50c.

The Superb Yellow Rose,

MARECHAL NIEL.

The most popular of all. A Rose so famous as to really require no description. Its magnificent golden-yellow buds are worn the world over; they illustrate the globular form in its last perfection, and are almost massive in dimensions. The reports from southern growers tell of single plants showing one and two thousand blooms of Marechal Niel at a time. It is almost universally held to be the finest climber for indoors or out, where the climate admits of its cultivation. 15c each; two-year-old, 35c. Fine three-year-old plants, with long branches, 50c each.

GENERAL McARTHUR.

General McArthur is a Hybrid Tea Rose, as fragrant as a Rose can be; has good sized flowers and blooms continuously. The bud, when first opening, is the brightest crimson-scarlet and the flower retains this perfect coloring until it drops its petals. Blooms continuously the whole season through and gives fine stems for cutting. In habit of growth is remarkably good, making strong, shapely plants that may be depended on for large-flower shoots. It will stand the winters any place south of the Ohio River, but north of that line it should be protected. Young plants, 25c each; two-year-old, 50c each.

HELEN GOULD.

(Hybrid Tea.) We believe this one of the best hardy ever-blooming Roses ever introduced. The color is unique, a very soft intense carmine crimson with deeper shades in the depth of the petals; in color much like American Beauty. The profusion of its bloom is truly marvelous, every shoot producing a flower. A grand addition to our list of red Roses and equally valuable for winter forcing or summer bedding. Price, 15c each; two-year-old plants, 30c each.

The Beautiful Yellow Tea Rose,

STAR OF LYON—Etoile de Lyon

This magnificent Tea Rose is a rich, golden-yellow, a strong, healthy and vigorous grower, immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance, very sweet. Surely one of the best and most beautiful yellow Tea Roses for general planting ever introduced. Remarkably hardy, both as to heat and cold. Price, 10c each; large two-year-old plants, 30c each.

MARIE VAN HOUTTE

Of a fine, faultless, straw-yellow color, with the outer petals washed and outlined with a bright rosy-crimson; occasionally the whole flower will be suffused with light pink. It grows vigorously, blooms profusely, and is most deliciously scented. Price, 10c each; large plants, 25c each.

MADAME HONORE DEFRESNE

A valuable and exceedingly beautiful variety, flowers a clear golden-yellow, very large, full and sweet, buds long and pointed, opens well. First-class in every way. Probably the richest yellow Rose ever grown. Price, 10c each; large two-year-old plants, 35c each.

PINK BOUGERE

Another fine Rose for open-ground planting; an easy variety to grow, with pretty foliage, long, stiff stems, and very hardy. Flower a clear pink, deep with large petals. A fine variety for any purpose. Price, 10c each; two-year-old plants, 30c.

BEAUTY OF STAPLEFORD

A fine Rose for Southern planting. From reports about New Orleans, this Rose seems to be at the head of the list for outdoor planting. Very fragrant. Color clear, bright pink, shading to bright rosy-crimson. Makes a beautiful bud and is a constant and profuse bloomer. Price, 10c; two-year-old plants, 30c.

MRS. E. DURANTHON

This Rose is very beautiful, its strong branching habit being admirable; each side shoot brings a perfect flower on a stiff stem; never shows a weak neck. The upper surface of each petal is shell pink, the reverse soft rose, very free and fragrant. A good Rose for your collection. Price, 15c each; two-year-old plants, 30c each.

NOTICE—We will send you any three of the above Roses, postpaid, for only 25 cents, or eight for 50 cents.

MAD. CAROLINE TESTOUT

The petals are large and of the elegant La France form; exquisitely edged and bordered with clear silvery rose. Both flowers and buds are extra large and of very elegant form; the color is brilliant, satiny rose, deepening at center to clear red. A Rose of great beauty. After thorough trial we recommend it as one of the best, if not the best, of the many new Roses recently introduced for outdoor culture. Price, 15c; two-year-old plants, 35c.

GLADYS HARKNESS

A new Hybrid Tea Rose of vigorous and erect growth similar to that of American Beauty. It is half-hardy and will stand the northern winters if protected by litter or evergreen boughs. Blooms very profusely, flowers large, formed like a large hardy Rose; color deep salmon pink, a shade that has always been wanting in Roses. It has a splendid constitution, lasting well when cut, and is very fragrant. We predict its sale to be very large. Price, 15c each; two-year-old plants, 35c.

LADY CLANMORRIS

Another Hybrid Tea, perfectly distinct from any other offered. A splendid Rose, of very robust growth and free-branching habit, flowering continuously and freely throughout the season. Blooms very large and of good form; petals large, smooth and of great substance; color creamy-white with delicate salmon center, edge of petals margined with pink. This is one of the finest of the new Roses. Price, 15c each; two-year-old, 35c.

The Superb New Tea Rose,

ANTOINE RIVOIRE

A handsome new Rose of vigorous habit of growth, with large, full, Camellia-shaped flowers. Color rosy-flesh on a yellow ground, shaded with a border of carmine. Flowers have been exhibited five inches in diameter. A remarkable variety of great worth. Price, 15c; two-year-old, 30c.

Bridesmaid.

**New Tea Rose,
BRIDESMAID**

Here we have a new Rose, a sport from that old stand-by, Catherine Mermet. All know that Catherine Mermet takes precedence as a pink Rose. More plants of it are cultivated by the amateur, and more cut bloom is sold by the flower dealer than any pink Rose. Why? Because the bud is of exquisite shape and contour, so solid and firm, and the stems are so long and stiff that no other Rose will compare with it in keeping qualities after being cut. It is about two shades deeper in color—just enough to make it bright; and it is the same color all the time under every condition of weather and surroundings. Price, 10c each; large two-year-old plants, 30c each.

A Page of Our Crimson Beauties

New Red Tea Rose,
PRINCESS HOHENZOLLERN

A very strong, vigorous grower, with beautiful foliage, dark and large, flowers very large, more than semi-double, of perfect form, often produced in clusters. Color a bright, deep, satiny-red, with lighter center. Price, 15c each; large plants, 30c each.

The Beautiful New Crimson Bedding Rose,
PRINCESS SAGAN

The flowers of this variety are the richest crimson of any Rose in our collection, a single bud or blossom will catch the eye at a great distance, so brilliant is the color. Indeed, it is unmatched in its velvety richness; could well be termed "The Velvet Rose." It is as free in blooming as Bon Silene. One of our customers in California writes that she is kept busy by people asking what Rose this is. Price, 15c each; large, two-year-old plants, 40c each.

PERNET'S TRIUMPH

The flowers are extra large, having broad, thick petals, and long, tapering buds, with delicious tea fragrance. Color a fine, clear magenta-red, sometimes passing to a bright crimson. Very striking and beautiful, and of such good substance that the flowers retain their beauty for a long time. Price, 15c each; large, two-year-old plants, 35c.

LUCULLUS

A strong growing outdoor Rose; a free and constant bloomer; borne in clusters. Color a fine crimson, fading to a purple. Price, 10c each; large, two-year-old plants, 25c.

AGRIPPINNA

A very strong grower, with beautiful foliage. Flowers are borne in clusters of semi-double and of perfect form. Color a bright scarlet. Price, 10c each; large, two-year-old plants, 25c.

THE LARGE, TWO-YEAR-OLD ROSES seem to be growing more popular every year, and we recommend these to those who want an immediate effect.

New Bedding Rose,
GRUSS AN TEPLITZ

It is a Rose for everybody, succeeding under the most ordinary conditions, and will take rank with such old-time favorites as Hermosa, Souv. de la Malmaison, Clothilde Soupert, etc. In color it is rich scarlet, shading to velvety crimson; of larger size than Hermosa; very fragrant; a free, strong grower, and the most profuse bloomer known to us, the mass of color produced being truly phenomenal, and the foliage is extremely beautiful, all the younger growth being of a bronzy-plum color. Price, 15c each; two-year-old plants, 30c.

JAMES SPRUNT

An excellent crimson flowered ever-blooming climber. The flowers are exquisitely formed, very full and double, nicely tea scented; strong growing and very free flowering. Price, 10c each; two-year-old, 25c.

New Crimson Rose,
DR. CAZENEUVE

Its color is a warm, rich crimson, and surpasses its rival, the well-known Meteor, which is the nearest Rose to its color, but darker. An inspection of the growing plants satisfies us as to its vigor and vitality. It has every evidence, too, of being a continuous bloomer. In habit the plant is erect growing, making a good wood of considerable length and rigidity, and displaying a strong inclination to make a compact bush. The foliage is of moderate size, with seven roundish leaflets, very shapely and evenly serrate on the margins. Price, strong plants, 20c each; large, two-year-old plants, 40c.

New Tea Rose,
CHARLES LEGRADY

Magnificent large buds and flowers of great beauty. Color a fine chamois-red, richly shaded with darkest crimson. This rich, unique coloring is one of its marked characteristics, and stamps it with a distinctive charm. The outer petals are grandly recurved, forming an excellent contrast to the Camellia-like inner petals. Price, 10c each; large, two-year-old plants, 25c each.

QUEEN'S SCARLET

A very desirable and satisfactory Rose; a constant and profuse bloomer. The flowers are rich, velvety-scarlet, very brilliant and striking. Price, 10c each; large, two-year-old plants, 25c each.

PAPA GONTIER

A grand red Tea, of fine crimson shade and silken texture (as distinct from velvety texture). The bud is fine size and graceful form, and you would never suspect it that the Rose is only semi-double. Extremely free, both in growth and bloom. Price, 10c each; large, two-year-old plants, 25c each.

JOSEPH METRAL

Extraordinary value. It is a strong, vigorous grower, making a handsome, graceful bush, with large, thick, deep green leaves. The flowers are large, beautifully cup-shaped. It is a deep brilliant crimson, one of the darkest, if not the very darkest and richest colored Tea Rose in existence. Price, 15c each; two-year-old plants, 35c each.

CLIMBING WOOTTON

Though not one of the newest Roses, yet the trade is just finding out the wonderfully good qualities of this Rose. It is superior to Souv. de Wootton, its parent, in that the stems are much longer and the growth is more rapid. The color is identical with its parent, a deep velvety crimson. It will live through the coldest winters with but slight protection. A Rose that every florist should add to his collection. Price, 15c each; two-year-old plants, 30c.

We offer any seven of the above Roses for 50c. We are sure you would be pleased with them. Large, two-year-old plants, any seven for \$1.50.

New Ever-Blooming Rose,
GOLDEN GATE.

There are so many beautiful Roses, and they are beautiful in so many different ways, that it scarcely seems possible for any one variety to be the most beautiful of all Roses; and yet if the question were to be decided, we are strongly of the belief that the palm would have to be awarded to the new Tea Rose, Golden Gate. This magnificent Rose is the result of a cross between those old and greatly admired varieties, Safrano and Cornelia Cook, and while combining the good qualities of both is vastly more beautiful than either. The flowers are extra large, very full and finely formed, and of excellent substance; the buds are long and of the most desirable form; the color is a rich creamy-white, beautifully tinged with fine golden-yellow. The petals are large and broad, and exquisitely bordered and tinted with clear rose, making altogether a Rose of the rarest and most indescribable beauty. Price, 15c each; large, two-year-old plants, 35c each.

MARIE GUILLOT.

This beautiful Tea Rose continues in popular favor and still maintains its position as one of the best white Roses of its class. Flowers of an unusual style, entirely double to the center; very sweet-scented. Habit of growth the best. Price, 10c each; large, two-year-old plants, 25c each.

The New Beautiful Hybrid Tea Rose, **PRESIDENT CARNOT.**

It is a Rose of the largest size, beautiful both in bud and open flower. The buds come on long, stiff stems. The color is distinct and novel, a lovely fawn, shading to pearl. It often measures five to six inches in diameter. It is so handsome and distinct that it attracts immediate attention. It is, indeed, a wonderful Rose, one that everybody can grow and bloom. Price, fine young strong plants, 15c each; fine two-year-old plants, 40c each.

White Tea Rose,

THE BRIDE.

This is decidedly the most beautiful white Tea Rose. It is a sport from Catherine Mermet, with which it is identical in growth and shape of flowers. The flowers are very large and double, on long stiff stems, of fine texture and substance and last a long time in a fresh state after being cut, making it one of the best varieties for corsage wear or bouquets. During extreme hot weather it becomes a pinkish-white, at other times a beautiful pure white. Price, 10 cents each; large plants, 25 cents each.

The Fine Pink Tea Rose,

CATHERINE MERMET.

One of the finest Roses grown. Its name is the synonym for all that is delicate and beautiful. Its buds are inimitable, faultless in form and charming in their every shade of color, from the purest silvery-rose to the exquisite combining of yellow and rose, which illumines the base of the petals. It is, beyond doubt, the Rose of all Roses, and you should not fail to have a Mermet in your collection. Price, 10 cents each; two-year-old plants, 25 cents each.

MRS. ROBERT GARRETT.

The size is enormous; indeed, the flowers are larger than any Tea Rose we have ever seen, while the form, both in bud and full-blown flower, is most artistic and beautiful. The buds are unusually long and pointed; the open flowers full and double. The color is a pleasing soft pink, a little deeper than Daybreak Carnation, totally distinct and unlike anything yet seen in Roses. It is a strong, vigorous grower, producing its flowers on long, stiff stems. Price, 15 cents each; large, two-year-old plants, 40 cents each.

The Grandest of All, **THE METEOR.**

A velvety-red ever-bloomer of the deepest glowing crimson; as fine as a Hybrid. Flowers of medium size, very double and slightly recurving. A beautiful open Rose. A free bloomer and a very excellent pot Rose. It has no tinge of violet or purple to mar its beauty. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. This is unquestionably the best dark velvety-red Rose yet produced. Grand, both in bud and flower. Price, 10c each; large, two-year-old plants, 25c each.

BURBANK.

Another fine Rose for open-ground planting; an easy variety to grow, with pretty foliage, long, stiff stems, and very hardy. Flower a clear pink, deep with large petals. A fine variety for any purpose. Price, 15c each; large, two-year-old plants, 25c.

WHITE TEA ROSE WHITE MAMAN COCHET.

We would advise all who love choice Roses to plant at least one of this beautiful new Rose. Price, 15c each; two-year-old plants, 30c each.

THE BEAUTIFUL NEW CRIMSON BEDDING ROSE PRINCESS SAGAN.

The flowers of this variety are the richest crimson of any Rose in our collection, a single bud or blossom will catch the eye at a great distance, so brilliant is the color. Indeed, it is unmatched in its velvety richness; could well be termed "The Velvet Rose." It is as free in blooming as Bon Silene. One of our customers in California writes that she is kept busy by people asking what Rose this is. Price, 15c each; large, two-year-old plants, 40c each.

MARIE VAN HOUTTE

Of a fine, faultless, straw-yellow color, with the outer petals washed and outlined with a bright rosy-crimson; occasionally the whole flower will be suffused with light pink. It grows vigorously, blooms profusely, and is most deliciously scented. Price, 15c each; large plants, 25c each.

NEW TEA ROSE MADEMOISELLE FRANCISKA KRUGER

SIX OF THE BEST EVER-BLOOMING

Pure White Roses

This Set of 6 Pure White Roses for
50c.; Two-Year-Old Plants \$1.50

IVORY.

We are pleased to offer a most valuable addition to our list of Roses for cut-flower purposes. A "sport" from the fine old variety, Golden Gate, which today is probably the freest flowering Rose of its type in cultivation, but which unfortunately lacks in decided color. Ivory embodies all the good points of its parent, size, freedom of bloom, strong, vigorous, healthy growth with a pure white color, which makes it an invaluable acquisition to the list of forcing Roses. It has received highest honors wherever shown. Price, 15c each; two-year-old, 35c.

White Tea Rose, -

THE BRIDE.

This is decidedly the most beautiful white Tea Rose. It is a sport from Catherine Mermet, with which it is identical in growth and shape of flowers. The flowers are very large and double, on long, stiff stems, of fine texture and substance, and last a long time in a fresh state after being cut, making it one of the best varieties for corsage wear or bouquets. During extreme hot weather it becomes a pinkish-white, at other times a beautiful pure white. Price, 10c each; large plants, 25c each.

TEA ROSE WHITE MAMAN COCHET.

The finest Rose of the year; like its parent, the growth is vigorous with rich, healthy foliage, producing large fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet, and all who have tried it pronounce it the finest bedding Tea Rose in existence. We would advise all who love choice Roses to plant at least one of this beautiful new Rose. Price, 15c; large, two-year-old, 30c.

KAISERIN AUGUSTA VICTORIA.

This beautiful Rose has not only a royal name, but is a royal Rose as well. We have white Roses that have elegant buds, but when full blown are not all that is desired. Then, again, we have white Roses that are elegant when full blown, but have poor buds. This Rose combines both these good qualities. It is a continuous bloomer, producing successive crops of buds, and formed with large petals of best substance; shows no center, when fully open. Color a pure snowy white. Price, 15c; two-year-old, 35c.

CORNELIA COOK.

The buds are most beautiful, of immense size, and are borne up high on massive stems, and with their round, full, heavy form, carry an air of grace and dignity quite unusual. The flowers are the clearest, snowiest white, and are arranged in the most faultless and symmetrical manner. Cornelia Cook has the largest bud of any of the white Roses. It is a massive and magnificent Rose. Price, 10c each; large, two-year-old plants, 30c each.

SNOW FLAKE.

It has been called the White Hermosa, as it resembles Hermosa in form and freedom of bloom and is quite as valuable; for, though no claim has been made for it as a fancy Rose, its persistence in bloom will make it a very popular white variety for bedding or for pots. This Rose is fast becoming popular, as there is no better white Rose. It is the finest blooming white Rose we offer. Price, 15c each; large two-year-old, 30c.

The Beautiful White Forcing Rose, WHITE MAMAN COCHET.

The finest Rose of the year. Like its parent, the growth is vigorous with rich healthy foliage, producing large, fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet, and all who have tried it pronounce it the finest cut-flower Tea Rose in existence.

Forcing Rose, MAMAM COCHET.

One of the best new Roses. The growth is vigorous, with rich, healthy foliage. The extra large flowers are produced on long stems, are very double, and the buds and half-expanded flowers are simply exquisite in their graceful form, delicate color and rich fragrance. The color is deep rose-pink.

MADAME SCHWALLER.

Blooms in large clusters. Large globular flowers; color transparent salmon-rose; very delicate and tender; petals finely edged with violet-carmine; highly perfumed. With only a little protection they will stand the cold winter.

JAMES SPRUNT.

Deep cherry-red; flowers are medium size, very double and sweet. A strong, free grower and very abundant in bloom.

MADAME ELI LAMBERT.

This is a superb, rich, new Rose, carrying such fine combinations of color that it is sure to please. It belongs to the Tulip class, salmon-pink, with the center of coppery-rose, elegantly edged darker.

PAPA GONTIER.

A grand red Tea, of fine crimson shade and silken texture. The bud is fine size and graceful form. Extremely free, both in growth and bloom.

The Superb New Tea Rose, ANTOINE RIVOIRE.

A handsome new Rose of vigorous habit of growth, with large, full, Camellia-shaped flowers. Color rosy-flesh on a yellow ground, shaded with a border of carmine. Flowers have been exhibited five inches in diameter. A remarkable variety of great worth.

METEOR.

A velvety-red ever-bloomer of the deepest glowing crimson, as fine as a Hybrid. A beautiful open Rose, a free bloomer, and a very excellent pot Rose. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. The best rich red Rose for the garden.

YELDOW SOUPERT OR MOSELLA.

Mosella is a strong grower, flowers are a little larger than the Clothilde Soupert; the color is chrome-yellow in the center, getting creamy-white on the edges of the petals; it will make a great bedder and is perfectly hardy.

DUCHESS DE BRABANT.

A bright China Rose, with coppery-yellow center, ends of petals suffused with carmine. A charmingly beautiful combination of coloring, as each color blends nicely with the other.

WHITE TEA ROSE, THE BRIDE.

This is decidedly the most beautiful white Tea Rose. It is a sport from Catherine Mermet, with which it is identical in growth and shape of flowers. During extreme hot weather it becomes a pinkish-white, at other times a beautiful pure white.

ETOILE DE LYON, STAR OF LYON.

This magnificent Tea Rose is a rich golden-yellow, a strong, healthy and vigorous grower, immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance, very sweet.

The Polyantha, or Fairy Roses

Price, 8c each; large two-year-old plants, 20c each.

Bloom in clusters, making a well grown plant look like one large bouquet. Almost hardy, requiring but slight protection even in most severe winters.

MIGNONETTE.

A lovely Fairy Rose; full, regular flowers, perfectly double and delicately perfumed. Its color is a clear, delicate rose, with a frequent and peculiar intermingling of white.

PETITE LEONIE.

The most delicate in coloring of any Rose. Pure white, faintly touched with pink. A charming Rose.

PERLE D'OR.

Beautiful light yellowish-salmon, deeper in the center, with small white edges. Blooms in clusters, medium size, of fine form and texture.

PARQUETTE

The flowers are pure white about one inch in diameter, flowering in clusters. Very full, prettily formed, resembling blossoms of the double white Primrose in profusion of bloom.

GEORGE PERNET.

A strong growing dwarf variety, forming a perfect round bush. The color is bright rose with touches of yellow, and passes to peachblow with silvery-white shadings.

PRIMULA, POLYANTHA.

New. A very showy, low-growing little bush, completely covered with cup-shaped flowers, semi-double, which are China rose at the edges and snow white in the center. This arrangement of the color reminds one of the Chinese Primrose. A pretty bedding plant.

Our Great Soupert Collection of Roses

FIVE SOUPERTS FOR 50 CENTS

The Famous Hardy Ever-Bloomer, Clothilde Soupert.

THE NEW ROSE, CLIMBING SOUPERT.

This is a climbing form of the grand variety, Clothilde Soupert. The flowers and foliage are identical with that variety, differing in that the growth is a rampant climber, as free in bloom as its parent. This makes grand plants to grow in the field, and prune or train into bush form for spring flowering, much superior to the parent variety. Color ivory-white, deepening to a rosy-blush in the center. Price, 15 cents each; two-year-old, 35 cents.

YELLOW SOUPERT, or MOSELLA.

Is another novelty that has been wanted for some years. Who does not know the beautiful Clothilde Soupert, the splendid bedding Rose? Mosella is a stronger grower, flowers are a little larger than the Clothilde Soupert, but appears the same way in clusters and on single stems; the color is chrome yellow in the center, getting creamy white on the edges of the petals; it will make a great bedder and is perfectly hardy. Price, 15c each; two-year-old plants, 35c each.

THE BEAUTIFUL NEW PINK SOUPERT.

This bright new Rose is a very free flowering variety, much resembling Hermosa, but more double and flowering more freely; it shows the Polyantha blood in the full cluster of bloom, and it will make a handsome contrast, bedded or grown with the C. Soupert. The flowers are not quite so large, full and handsome as our original Soupert, but fill a place because of their brightness and freedom. The habit of the plant is almost identical with C. Soupert. Price, 15 cents each; two-year-old plants, 35 cents each.

WHITE SOUPERT, or LEONIE OSTERRIETH.

We have given this Rose an extended trial, and believe there is no better white Rose grown. The buds are of a good size, the flower full and double, and deliciously fragrant, pure porcelain white, with deep center. In freedom of bloom this charming variety rivals the Polyanthas. Price, 15c each; two-year-old, 35c.

CLOTHILDE SOUPERT.

This Rose originated with Messrs. Soupert & Notting, of Luxembourg, Belgium. It is a strong, vigorous grower. The flowers are large, double and beautiful in form, with style of the beautiful Rose "Ball of Snow." The flowers are borne in sprays, and the color blends from a soft shell-pink to a pure satiny-white. Roses with both these colors are borne on the same plant at the same time. No other Rose approaches it in flowering qualities. Price, 10c each; large plants, 30c.

The great New Orleans Rose, but does equally as well in the North, where with a little protection it will stand the cold winters. An excellent crimson flowered ever-blooming climber. The flowers are prettily formed, very full and double, delightfully tea scented, strong growing and very free flowering. Price, 10c each; two-year-old plants, 30c each.

New Tea Rose, CHAS. LEGRADY.

Magnificent large buds and flowers of great beauty. Color a fine chamois-red, richly shaded with darkest crimson. This rich, unique coloring is one of its marked characteristics, and stamps it with a distinctive charm. WHITE LA FRANCE

(Augustine Guinnoiseau.)

Here we have a beauty indeed, one we recommend to all, whether for outdoor culture or for pots in the house in winter. If you were to ask us to select six of the very finest Roses for you, we should be sure to include it in the six. Do you know La France? If so you know this elegant new Rose. It is identical with La France, except in color. It is pearly-white, sometimes tinted with fawn. We predict for it far more popularity than La France ever attained. Don't fail to get this new Rose. Price, 15 cents each; large size, 35 cents each.

STRIPED LA FRANCE

(Madame Angelique Veyssset.)

Everybody knows the beautiful La France—a Rose that has always had such a ready sale that the demand has never been fully met. Striped La France combines all the good qualities of La France in growth, fragrance, shape of bud and flower; in fact, differs from it only in two points: First, it is freer in bloom than the parent; second, it is nicely striped, the markings being plain and distinct, the variegation a beautiful bright rose on a satin-pink ground. Price, 15 cents each; large two-year-old plants, 35 cents each.

PINK LA FRANCE

We have always given this the first place—the Queen of Roses. Accounts come to us from all quarters every year describing the great profusion of its bloom from June until frost, and extolling its fragrance and immense size. It is of superb form, and double as a Rose can be. No variety can surpass it in delicate coloring—silvery-rose shades, with pink. It has a satin sheen over all its petals. It is most universally regarded as the most useful of Roses, for it is hardy beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisitely colored and fragrant in the highest degree. Price, 15c; large, two-year-old, 35c.

SPECIAL OFFER—One each of the above four La France Roses for 50 cents. Strong two-year-old plants of the four La France Roses, \$1.25.

Pink La France.

THE RED LA FRANCE

(Or Duchess of Albany.)

We have no hesitancy in saying to our customers that this Rose stands at the head of all Roses, not excepting La France. What we wish to impress is the fact that as a Rose for all purposes it has no peer. It is identical with La France, excepting in three points. Those are: A more vigorous growth, a larger and more expanded flower, and a deep, even pink in color. Color not shaded, but what is called a solid color. Price, 15c each; large, two-year-old plants, 35c each.

A Page of the Best Climbing Tea Roses

New Climbing Rose, Mrs. Robert Peary.

MRS. ROBERT PEARY.

or Climbing Kaiserin Augusta Victoria.

This is by all odds the most remarkable new Rose of recent introduction. It is an offspring of that grand variety, Kaiserin Augusta Victoria. The flowers are extra large, full, deep and double. They are of excellent substance, and produced on long, stiff stems, like a forcing Rose. The buds are long and pointed, a remarkable feature not found in any other climbing Rose. The color and shape of the bud and flower are identical with Kaiserin Augusta Victoria. Pure ivory-white. The foliage is also identical. The fragrance is delicious. 15c; two-year-old, 30c.

MARECHAL NIEL.

A Rose so famous as to really require no description. Its magnificent golden-yellow buds are worn the world over; they illustrate the globular form in its last perfection, and are almost massive in dimensions. The reports from Southern growers tell of single plants showing one and two thousand blooms of Marechal Niel at a time. The best success will be had with the plants priced 35 cents. Price, nice, well-established plants, 10 cents; large, fine two-year-old plants, 35 cents; fine 3-year plants with long branches, 50c each.

CLIMBING BRIDESMAID.

Bridesmaid, the parent of this new climber, is the standard pink cut flower Rose of America. It represents the highest degree of beauty yet attained in Roses of its class. When we first offered this new variety as a sport from Bridesmaid its popularity was assured. It grows rapidly and strongly, and blooms as freely as does its parent. The flowers are simply beautiful, clear pink. This is one of the most valuable additions to the climbing Tea Roses made in recent years. 15c; two-year-old, 30c.

CLIMBING MARIE GUILLOT.

A Glorious New Rose.

If you have never seen Marie Guillot growing at its best in the open ground, you cannot conceive of the beauty of its large, bold, handsome white flowers. It has been termed the Queen of White Roses, and while there are many white varieties of unquestionable excellence, there are none more reliable for outdoor cultivation than Marie Guillot. It is one of the most rapid-growing and vigorous Climbing Roses we have ever seen. It blooms continuously throughout the season, the first and every year. The flowers are magnificently made, extra large, deep and double. The buds are particularly beautiful and the fragrance delightful. Price, 15 cents each; two-year-old, 30 cents.

CLIMBING METEOR

All who know "General Jack" will call to mind its beautiful, high-colored, rich, velvety-red buds and flowers. Climbing Meteor is the acme of all red Climbing Roses. It is a free, persistent bloomer, and will make a growth of from 10 to 15 feet in a season; in bloom all the time, as it is a true ever-bloomer. We do not hesitate to place it at the head of the list of all Roses for summer blooming, as it will make a strong growth and be literally loaded with its deep, rich, red flowers all the time. Its flowers are much larger than Meteor and are richer in color. Price, 15 cents each; two-year-old plants, 30 cents.

CLIMBING WOOTTON.

Though not one of the newest Roses, yet the trade is just finding out the wonderfully good qualities of this Rose. It is superior to Souv. de Wootton, its parent, in that the stems are much longer and the growth is more rapid. The color is identical with its parent, a deep velvety crimson. It will live through the coldest winters with but slight protection. Price, 15 cents each; two-year-old plants, 30 cents.

HERMOSA.

Everybody knows this famous variety. As hardy as an oak, and always covered with its elegant clear pink blooms. There is not a shade of color of any kind to mar its purity. We doubt if any Rose ever grown will take its place. Price, 15 cents each; large, two-year-old plants, 30 cents each.

MD. ABEL CHATENAY.

A grand bedding Rose, as it is a profuse and continuous bloomer, very double, with slightly recurved petals; elegant buds. Color rosy-carmine, shaded salmon. Price, 15 cents each; large two-year-old plants, 30 cents.

A PAGE OF CHOICE ROSES

SOUVENIR DE LA MALMAISON

This grand old variety, when used as a bedding Rose in summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh-colored flowers are of immense size, double to the center, are produced in abundance, and have the requisite form and substance to withstand our hot, dry summers. Price, 10c each; large, two-year-old plants, 30c.

PINK HERMOSA, THE OLD FAVORITE

Everybody knows this famous variety. As hardy as an oak, and always covered with its elegant clear pink blooms. There is not a shade of color of any kind to mar its purity. We doubt if any Rose ever grown will take its place. Price, 15c each; two-year-old plants, 30c.

GEN. ROBT. E. LEE

It is in color an orange-yellow, is a good grower, has elegant, long buds, borne on long stems. It forces easily. Price, 15c each; two-year-old, 30c.

SAFRANO

One of the best of all coppery-colored varieties, foliage is large, growth is very vigorous, flower large, yellow margin shading to a deep copper. Too good a Rose for this price. Price, 15c each; two-year-old, 30c.

MADAME DE WATTEVILLE

The color is a remarkable shade of creamy-yellow, richly covered with rosy blush. The petals are large and each one widely bordered with bright crimson, which gives it a very striking and beautiful appearance. The flowers are large, very full, and highly perfumed. This is the Tulip Rose, so called because of the feathery shading of bright rose around the edge of every petal, the body of the petal being creamy-white and of heavy texture. Price, 10c each; large, two-year-old plants, 30c each.

ADMIRAL SCHLEY

The color, a clear crimson, has made it the most popular Rose in the collection. The growth is bushy, vigorous and healthy. With protection it will stand the severe winters. Price, 15c each; large, two-year-old, 30c.

GENERAL DE TARTAS

A brilliant carmine, deeply shaded with violet. An extra large Rose, of good shape. The growth is fine; very good for outdoor bedding. Price, 10c each; two-year-old plants, 25c each.

MRS. DE GRAW

Everybody wants a hardy, ever-blooming Rose. From early summer until frost it may be depended upon to produce flowers in abundance. In color it is a rich, glossy-pink, delightfully fragrant, and is such a strong, vigorous grower that it is almost impregnable against attacks of the insects which usually destroy some of our finest Roses. Price, 15c each; two-year-old plants, 30c.

YELLOW HERMOSA, COQUET DE LYON

This is a most charming yellow Tea Rose, a grand grower, has elegant buds, and is so free in flower as to be called the Yellow Hermosa. This is the best blooming pure yellow Rose in our catalogue. We sold of this Rose the past spring 5,000 plants. It is a Rose that will please all. Price, 15c each; large, two-year-old, 30c.

BON SILENE

Still a prime favorite, on account of its delightful fragrance and strong growing qualities; color, deep rose, shaded carmine. Valuable for summer or winter flowers. Price, 10c each; two-year-old plants, 25c.

FIVE GOOD RAMBLERS

The Beautiful New White Climber,

WHITE RAMBLER (THALIA)

Of German origin, and in habit of growth, foliage, manner of blooming, form of flowers and hardiness, it is said to be identical with Crimson Rambler, of which it is a blood relative, but that the flowers are pure snow white and sweetly scented, which the flowers of Crimson Rambler are not. Price, 10c each; two-year-old, 25c.

The New Hardy Yellow Climbing Rose,

YELLOW RAMBLER

The flowers are borne in immense clusters, after the same manner as the Crimson Rambler. The color is a decided yellow. Many Roses which are described as yellow have really only a creamy tinge, but the Yellow Rambler is clear, decided yellow. The flowers are very sweet scented. The plants do not bloom at quite so early an age as the Crimson Rambler, but as soon as well established they more than make up for this by the magnificence of the flowers they produce. Price, 10c each; two-year-old plants, 25c each.

EMPRESS OF CHINA

A hardy climbing Rose of easy growth and pretty foliage. It is claimed by the introducers to be a wonderful bloomer, which is correct for most of the states, while in others it does not bloom so freely, but has a very rapid growth. A fine Rose, sure to please. Price, 10c each; two-year old, 25c.

The Fine New Climber

CLIMBING WHITE PET

This is an unusually vigorous grower and a wonderfully profuse bloomer. The flowers are very double and full, of medium size, pure snowy-white, and borne in large clusters continuously throughout the whole season. Price, 10c each; large, two-year-old plants, 25c each.

Charming New Hardy Climbing Rose,

PINK RAMBLER¹ (Euphrosyne)

What is said of White Rambler applies equally to this except the color of the flowers is pure shiny rose—the partially open buds being bright, light carmine, thus producing a strong and pleasing contrast. The numerous yellow stamens lend an additional charm to the flower. Price, 10c each; two-year-old, 30c.

SPECIAL OFFER—THE THREE RAMBLERS, YELLOW, WHITE AND PINK, FOR 25c.

Pink Rambler.

THE NEW EVER-BLOOMING DWARF CRIMSON RAMBLER ROSE

The Best of all Roses for Pot Culture and Bedding. It is a TRUE EVER-BLOOMER and Identical with Crimson Rambler Except in Habit

THE BABY RAMBLER

It blooms in elegant clusters, and the flowers are as large and bright as the Crimson Rambler. Undoubtedly one of the greatest novelties in Roses introduced for many years. It is entirely hardy, needs no protection and has come to stay. All lovers of beautiful Roses will want the New Dwarf Ever-Blooming Crimson Rambler.

PRICE, STRONG PLANTS, BLOOMING NOW, 20 CENTS; FINE PLANTS IN 3 INCH POTS, 35 CENTS; TWO-YEAR-OLD, 5 INCH POT PLANTS, 50 CENTS.

Philadelphia Rambler.

NEW CRIMSON RAMBLER PHILADELPHIA

The Philadelphia Rambler has proven to be one of the best Hardy Climbing Roses in existence. The flowers are perfectly double, borne in clusters, completely covering the whole bush, color pure, deep rich crimson, which does not fade, but holds bright color to the last. Price, 10 cents each; large two-year-old, 30 cents.

CRIMSON RAMBLER

The plant is of a very vigorous growth, making shoots from eight to ten feet during the season, rendering it a charming pillar Rose. It is also magnificent in bush form, and for covering buildings, trellises, etc., it cannot be excelled. One of the striking characteristics of this Rose is its remarkable color, which is of the brightest crimson, which remains undimmed to the end, showing none of the objectionable purplish tint so common in crimson Roses. The flowers are produced in great pyramidal panicles, or trusses, each carrying from thirty to forty blooms, the individual flowers measuring about one to one and a half inches in diameter and remaining perfect on the plant for upwards of two weeks with their freshness of color unimpaired. The foliage is a bright green and glossy, and contrasts finely with the bright crimson of the flowers. Price, 10 cents each; two-year-old plants, 25 cents each.

Knowing the demand for large plants, three years ago we planted in the open ground this Rose in large quantities, and now have to offer large plants with canes three to five feet. Must be sent by express. Price, 50 cents.

HARDY ROSES—HYBRID PERPETUALS

When you plant Hybrid Perpetuals you may be quite certain of having Roses every year without further trouble. Though called perpetual, it must be understood that they are not such early and constant bloomers as the Ever-Blooming Roses. The Hybrid Perpetuals should not be ordered for house culture, as they are not suitable for that purpose. Do not become impatient if your plantings of these do not bloom the first season. Give them a chance to become established. These Roses are especially suited to plant in all the Northern States; also in the colder parts of the States of Virginia, West Virginia, Kentucky, Tennessee, North Carolina, Arkansas, Missouri, etc.

Hardy Rose, GEN. JACQUEMINOT

A rich, velvety-crimson, changing to scarlet-crimson. A magnificent Rose, equally beautiful in the bud state or open. Chrysanthemums

Justly called the "Queen of Autumn," are the most gorgeous and elegant of all the fall and winter blooming plants. The varieties listed in this catalogue are of the best in the market.

TO PROCURE LARGE FLOWERS.

Plant the young plants in a good rich garden soil and when they get to be 8 or 10 inches high, nip the top out, in order to induce more branches. The less number of branches the larger the flowers. When the buds appear allow only the center bud to remain on each branch, thus giving all the strength of that branch to the one flower.

YELLOW FITZWIGRAM

A new sport from Lady Fitzwigram having reflexed petals, long and close together. It has shown many points of excellence, such as size, form, and easy to cultivate. Color a clear yellow. Price, 15c each.

YELLOW EATON

A bright yellow sport from Timothy Eaton; only a shade lighter than Appleton, and especially valuable as the best in its color to follow that fine variety up to the close of the Chrysanthemum season. Foliage very beautiful; stem first-rate, and quite strong enough to hold up the monster blooms, which do not show the coarseness sometimes attributed to Eaton. For everybody's use, and for commercial purposes as well as for show, we can cheerfully recommend this grand variety. It is strictly A No. 1. Price, 15c each.

WHITE BONAFFON

One of the most useful of the white varieties. Color very fine and pure; splendid form; one of the best. Three feet; late midseason. Price, 15c each.

ESTELLE

Produces extra sized flowers of the purest white; fine deep form, with foliage evenly distributed along stem. Marketable blooms were cut on October 4, and under the same conditions of culture it came a week earlier than its parent, Glory of the Pacific, with a far superior flower in shape and substance. Price, 10c.

ADRIAN

A very closely incurved Japanese, exceedingly striking in appearance; creamy white. Its perfect contour, closely incurved petals, large size, and high rounded center, are certain to meet general approval. Grows about 4½ feet; good foliage. A fine sort. Price, 15c each.

MARIE LIGER

This is the new French variety that won the prize offered by the Chrysanthemum Society of America, for the finest seedling at the recent Paris Exposition. Closely incurving blooms of large size. The color is pearl-pink, deepening to a very bright shade at the base of petals. Stems are stiff and fully covered with handsome foliage. It is perfectly uniform, perfecting every flower. Price, 15c each.

LOUIS LEROUX

Color clear nankeen, shading to pale pink; one of the prettiest combinations that we have yet seen, reminding one of a beautiful old sort called Incandescent. Petals large, center incurving, outer petals reflexing; a fine grower, with beautiful foliage; 3½ feet; early midseason. Price, 15c each.

OPAH

One of the finest commercial varieties to date. The color is pure white from crown; and ends of the petals a beautiful shade of bluish pink. It resembles in form Yellow Fitzwigram, having reflexed petals which make almost a perfect ball. The earliest variety we have and one of the most desirable for pot or garden planting. Price, 15c each.

W. H. CHADWICK

Magnificent variety in both form and color, and unsurpassed in size. The center of the flower incurves and the outer petals reflex, making a flower of great depth. Color, bluish white with a delicate pink stripe in center of petal. Price, 15c.

THE NEW YELLOW, COL. D. APPLETON

After thorough tests this new Chrysanthemum has proved to be one of the finest yellows ever sent out. It is an ideal exhibition variety, with flowers of immense size, measuring 22 inches in circumference and of great depth. Flower is a magnificent Japanese incurved with lower petals reflexed, and not showing any center. Besides its immense size and beautiful shade of clear yellow, another point in its favor is its almost faultless stem and foliage, growing fully up to the flower. Price, 10 cents.

THE QUEEN

It excels all in purity, extra large in size, of beautiful half globular form with broad incurved, shapely petals of great substance; growth robust, with large, smooth, heavy, deep green foliage; carries flowers erect on stiff stems; a grand show flower, and promises to be a very profitable sort for commercial purposes. Price, 10 cents each.

LORD HOPETOUN

A very handsome flower of the richest scarlet-crimson, with shining gold reverse; when fully expanded, the center petals show the gold while the outer petals reflex, thus showing the lovely crimson shade; both colors are perfect, and the variety is an easy doer, and we have had no touch of burn on any flower in the two years we have been growing it. One of the finest for show or for general purpose. Price, 15 cents.

COL. BADEN-POWELL

A No. 1CHRYSANTHEMUM COLLECTION

Set of Eight Leading Chrysanthemums for 75c.

MRS. COOMBES

An extra fine very early pink variety of the largest size, blooming just after Glory of the Pacific and before Pink Ivory. Color, beautiful rose-pink, resembling Vivand Morel in color and also in style, but the petals are broader. It is a fine dwarf grower. First-class pink Chrysanthemums are scarce, and this variety will prove exceedingly valuable on account of its earliness and large size. Price, 15c each.

THE GIANT WHITE, TIMOTHY EATON

This certainly is a very giant among its fellows, creating quite a sensation among the late flower shows. It is an enormous, globular, Japanese incurved variety of perfect form and growth. Color a pure white, even whiter than its parent, Minnie Wanamaker. Timothy Eaton has captured every cup and prize for which it has been entered. Price, 10c.

MRS. O. P BASSETT

The finest of its color ever offered. It is a sport from the grand variety, Mrs. Henry Robinson, and takes after its parent in all the fine qualities. The color is a fine canary-yellow of a soft texture. It is a large flat incurved variety with broad petals, outer petals drooping a little as the flower opens. The dark green foliage, stiff stems, and medium height, make it one of the best cut-flower varieties we have ever grown. It has received several certificates of merit at the Chrysanthemum shows. Price, 10c each.

ADELE

A mammoth, extra large, light pink variety of most robust habit and medium size. Not only a fine cut-flower variety, but is unexcelled for pot culture. The flowers are a beautiful shade of light pink, shading to a deeper pink at the end of the petals. The form of the flower is very similar to the old variety, Ivory, only much larger. Price, 10c each.

WM. FALCONER

(Pink Ostrich Plume.) Has the same wonderful hair-like growth or excrescence that appeared for the first time in the white variety, Mrs. Alpheus Hardy, but it differs from it in color, having a most beautiful shade of lavender-pink, shaded with silvery-pink on the ends of the petals. Price, 10c each.

MRS JEROME JONES

This is a fancy cut-flower variety which completely captivated us. It is almost of globular form, of the finest silky finish, and destined to become a standard sort for cutting. The outer petals are a delicate lavender, forming a decided band of color; the inner petals are clearly lemon. A plant in bloom has a most beautiful, airy appearance.

GEORGE W. CHILDS

The flowers are of massive size, reflexed, with broad, stiff petals; color deep, rich, velvety crimson, with no shade of brown or chestnut. Flowers borne on strong, stiff stems. The foliage resembles Cullingfordii, but it is much heavier and darker. They grow close up to the flowers, which gives the plant an elegant appearance. Price, 15c each.

The Glorious New Geranium, **JOHN DOYLE.**

This remarkable new Geranium is a cross between Grand Chancellor and Bruant, and is destined to take the most prominent place in bedding or pot Geraniums. It has been tested for three seasons and is found to be superior to any of the Bruant type. It is a strong, vigorous grower, throwing its truss up well above the foliage, of enormous size, and of the richest, brilliant, vermilion-scarlet. It is a phenomenal bloomer, as it will produce more bloom than any Geranium we grow. Don't fail to order at least one of these beautiful Geraniums.

The Marvelous **BEAUTE POITEVINE.**

It is a perfect marvel among Geraniums, and is the best of the new dwarf-grown sorts. It is very dwarf and compact, and of a very branching habit. The flowers are produced in the greatest profusion upon large sized trusses, and the color is like the beautiful Aurora, unique and changeable, some trusses being of a deep rosy-salmon, streaked and veined carmine, with deep magenta color; others with the outer petals almost a pearly white, with carmine color.

The Leading Pink Geranium, **JEAN VIAUD.**

Double. Very large and semi-double blooms borne in large trusses well above the foliage; individual florets large; color bright rosy-pink with distinct white blotch in the center; habit dwarf, compact, very vigorous and exceptionally free blooming. Best pink Geranium for bedding yet introduced.

The Famous Single Geranium, **THE WONDER.**

This new Geranium, without doubt the finest that has ever been offered, came from France in a lot of fine sorts, and is supposed to be a sport from the scarlet Geranium, Athlete. It being so intense in color, such a wonderful bloomer and strong grower that it was kept separate and styled "The Wonder," from the fact that every one who saw it pronounced it wonderful. The flowers are of the most intense, dazzling scarlet, and are borne in trusses of enormous size, measuring from eighteen to twenty inches in circumference, with single florets measuring seven inches in circumference. As a pot plant or bedding Geranium it has no equal.

The Fine Pure White Geranium, **LA FAVORITE.**

A pure, double, white Geranium, as free-flowering as the single varieties, and which can be used for planting in beds, for furnishing a supply of beautiful white flowers for vases, etc., or for pot culture for Winter forcing. The flowers are borne in large trusses, of the purest snow white, retains this pure whiteness even in the height of Summer, and for Winter blooming is all that can be desired.

The Incomparable Single-Flowered Salmon Geranium, **MRS. E. G. HILL.**

There has never been a salmon-colored Geranium to equal this, although it has been introduced some four years, and it is rarely offered in wholesale lists, because it is at once picked up by market-growers. For those unacquainted with the variety we would say it is a most distinct and pleasing shade of salmon, with light shading to the center. The finest salmon-flowered Geranium to date.

The Great Double Geranium, **BRUANT.**

The giant among Geraniums. We consider this the best bedding Geranium of all varieties. The plant abounds in vigor; foliage strong, striking and of perfect habit. Ampelopsis Veitchii.

This vine also goes under the name of "Japanese Ivy" and "Boston Ivy." It clings readily to any surface, not even excepting glass, where it will spread its fairy-like tracery of infinite small leaflets and the accompanying circular suckers by which it is attached. The older leaves attain a moderate size. They are graduated down to very small ones. The texture is leathery and smooth. The foliage is closely over-lapping, not a stem visible. Its color, very bright in autumn, is a delicate green in summer. Price, 10 cents each; strong field-grown plants, 25 cents.

Ageratum.

AGERATUMS

A good collection containing the following sorts. Price, 8 cents each, or the six for 35 cents.

Stella Gurney—A new American variety originated by Mr. James Gurney, of St. Louis, where it has been used very extensively in the parks. It is undoubtedly the finest Ageratum yet introduced. The dwarf and compact growth makes it fine for bedding or basket and vase. Color is a deep, even blue.

Ageratum Princess Pauline—A most distinct and novel variety, its peculiarity being that both colors, blue and white, are combined in the same flower; the body of the flower being white, while the stamens are of a light sky-blue.

Cope's Pet—A valuable new dwarf variety, producing bright blue flowers.

White Cap—New; it is, without doubt, the best white variety ever introduced.

Variegatum—Beautiful variegated leaves.

Tapis Blue—This is the best blue Ageratum for bedding, etc., yet introduced.

Asparagus Sprengeri.

ASPARAGUS SPRENGERI

When introduced, at a high price, this variety was received with some hesitation as to its desirability, but after only a limited trial it has come forward with such prominence that the supply will be inadequate to the demand for some time to come. Not only is it useful for cutting in sprays for fine cut-flower work, more particularly in connection with large Roses, etc., but grown in suspended pots, it makes one of the prettiest decorative house plants we know of. Used in decorations, as, for example, in the decorations of mantels, nothing can equal it. It is also a handsome thing for ferneries and hanging baskets. Price, 10 cents each; three for 25 cents; large plants, 25 cents each.

Chinese Azalea.

AZALEA

Chinese Azalea Indica.

No plant yet introduced gives better satisfaction or is becoming more popular every season for window and conservatory decoration. The ease with which they can be grown, their diversity of color and freedom of flowering will always keep them in public favor. The accompanying illustration gives a good idea of an average plant in flower. We offer only large plants, well shaped and covered with buds, which can only be sent by express (too large to send by mail.) Price, specimen plants, 75c and 1.25 each.

CROTONS

The Crotons are among the finest decorative foliage plants known. As easy to grow as Coleus, and much brighter in their coloring. The leaves of all are more or less veined and margined, sometimes entirely variegated with shades of yellow, orange and crimson. Some have long, narrow leaves, arching gracefully fountain fashion; others are broad and short, oak-leaved. Crotons love heat, sunshine and moisture. Price, strong plants, 20c each; 3 distinct kinds, 50c.

CROWN OF THORNS

Euphorbia Splendens.

A curious plant, with thick, fleshy, twining stems, which are covered with stout, sharp spines nearly an inch long. There is a tradition that this plant furnished the material for the "Crown of Thorns" used in the divine tragedy. The foliage is bright green and the flowers are a beautiful coral-pink, very pretty when in bloom. Price, 15c each.

CYCLAMEN, or PERSIAN VIOLET

(New Improved.) There is no more ornamental plant for greenhouse or parlor culture than the Cyclamen. It grows readily, blooms freely, and remains a long time in flower. The soil should be equal parts of turfy loam, leaf mold and silver sand. Put in pots three times the diameter of the bulb in October. Keep them in a cool, light place, watering lightly until growth begins. The whole secret of growing Cyclamens to perfection is light, air and low temperature. Price, 10c each; large, strong plants, 25c each.

CAREX JAPONICA VARIEGATA

A new ornamental Japanese grass, which is extremely useful as a house plant. The blades with a green center and white edge make it a very effective plant for vases and hanging baskets. It is propagated by division and a few plants bought this spring will give you a good stock for another year. Price, 10c.

**CYPERUS ALTERNIFOLIUS**

An ornamental grass throwing up stems about two feet high, surmounted at the top with a whorl of leaves, diverging horizontally, giving it a very curious appearance. Splendid for the center of vases or as a water plant. Price, 15c each.

CACTUS

King of the Cactus. This Cactus is the leading Cactus grown, having stopped growing a dozen other varieties. The leaves are of a dark green color; thick and leathery; from one to two inches in width. The flower measuring from two to three inches long and of a trumpet shape. Color a deep flaming scarlet. Price, strong plants, 15c each, 2 for 25c.

**HARDY AZALEA MOLLIS**

Mollis—Probably the most gorgeous of all hardy shrubs. They bloom in May, in large clusters, before the leaves appear. They are the most brilliant colored plants in the whole list of hardy shrubs, the prevailing colors being orange, yellow, buff, pinkish, red, etc. When planted in beds on the lawn they make a charming picture. No choice collection of shrubbery is complete without a liberal share of these very desirable plants. Those who know the Chinese Azaleas will get some idea of the effect produced by these, as they bloom in dense masses in the same way, but the colors are very much more brilliant. Price, 15c each; \$1.50 per dozen.

BOUGAINVILLEA SANDERIANA

This beautiful free-flowering variety was introduced about three years ago, and on account of its free-blooming qualities has become very popular, especially as a plant for Easter decorations. It is of strong and rapid growth, and the brilliant rosy-crimson blossoms are produced from early in March until midsummer. Price, 10 cents each.

The flowers are from $2\frac{1}{2}$ to 3 inches in diameter, and of a pure white color, the greater percentage of these coming full double, not unlike an Anemone-flowered Japanese Chrysanthemum, but even the semi-double and single flowers, which appear on the same plant, are very handsome. BOSTON SWORD FERN

The Sword Fern (*Nephrolepis Exaltata Bostoniensis*)—A variation from the ordinary Sword Fern, which originated in the vicinity of Boston, where it has been in popular favor for a number of years under the names of Boston Fern. In the vicinity of Boston no other plant is used so extensively as this graceful *Nephrolepis*, which differs from the ordinary Fern in having much longer fronds, which frequently attain a length of four feet. These fronds arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern. This drooping habit makes it an excellent plant to grow as a single specimen on a table or pedestal. Price, small plants, 10 cents each; large plants, 25 and 40 cents each.

JAPANESE FERN BALLS

(The Fern Novelty.)

The Japanese make up dormant fern roots and moss into balls that are so constructed as to send out leaves from all over their surface. When first received, dip into water for 10 to 15 minutes every two days until growth starts, meanwhile suspend by a wire in any desired location. After foliage starts, sprinkle as required to insure growth. Price, 40 cents each.

FERN DISHES

The use of ferneries as ornaments for the dinner table is now very general. Nothing makes so fine an ornament and nothing is so well adapted for the purpose. For this we make the following offer, which is entirely our selection of varieties.

THE NEW "OSTRICH PLUME" FERN

(*Nephrolepis Piersonii*.)

An entirely new form of the famous Boston Fern. The fronds grow in the most luxuriant manner, the pinnae subdividing, making miniature fronds, which are superimposed on the main fronds, looking as if two or even three were condensed in one. They are graceful beyond description, feathery, plummy, nothing describes them better than Ostrich Plumes, which they very much resemble. The young miniature fronds are constantly developing, a rich, lush green in the darker green ground of the main fronds, a charming contrast being thereby produced. The habit of the plant is grace personified; the fronds arch over in wavy irregularity delightful to the eye. It has created a stir among all the shows and received the highest awards wherever shown. Strong young plants, 15 cents each; large handsome plants from 5-inch pots, 50 cents; extra strong plants from 8-inch pots, \$1.00.

The Wonderful New Lemon.

Below we give you the introducer's description.

Nothing that has ever been brought to our notice in the plant line has caused one-half the commotion that this wonderful lemon has. It is a true ever-bearing variety. The tree has fruit in all stages of development, from the size of a pea up to the ripe fruit, showing it to be a true ever-bearer. Fruit has been taken from a tree weighing over four pounds.

In addition to its fruit bearing qualities it makes a very handsome plant for house culture. The dark green foliage is very large, and handsome and the pure waxy flowers with yellow stamens are nearly as fragrant as Orange blossoms, which they greatly resemble.

The lemons have very thin rind for such large fruit and are full of rich acid juice and are fully equal to eight or ten ordinary lemons.

No budding or grafting is necessary. The plant is of very easy culture, flowering and fruiting in good ordinary soil. Price, 10c; larger plants, 25c each; extra large two-year-old plants, 50c each. Plants three feet tall and over \$1.00, by express only.

The fruit at its best is not more than half the size of an ordinary orange, but is very bright and beautiful in color, delicious in quality; but it is for its flowers more than its fruit which commends it to general cultivation. When it blooms, it is so full that it seems to be all flowers. The pure waxy-white blossoms emit a delicate yet powerful fragrance, which is surpassed by no other flower. Price, nice plants, 10 cents each; large plants, 25 cents.

The broad, thick evergreen foliage, with its glossy richness, would alone entitle it to a place foremost in the rank of evergreen shrubs, but when in June the mass of luxuriant foliage is almost hidden by the magnificent array of beautiful flowers in clusters, it is simply grand. A protection of leaves and brush during the first winter will be beneficial. It will thrive in any good soil without any special preparation, and in the full blaze of the sun, but it is more luxuriant in good, well-prepared soil of leaf mold and muck and peat mixed, and in partial shade. Should go by express. Price, 75 cents each.

THE BABY PRIMROSE

(*Primula Forbesi*).

It is a wonderfully free-blooming plant, commencing to flower as soon as borne. It is raised from divisions; also from the seed, though the latter method is inadvisable owing to the uncertain and variable character of the seedlings. It forms a dense rosette of somewhat fleshy leaves, from which spring the flowering stems, twelve, fifteen and even twenty inches tall, supporting three tiers or whorls of dainty flowers of a delicate rosy-lilac, with eye of pale gold. The flowers are not more than half an inch in diameter, but they are produced in such great abundance that plants present a dense mass of bloom, which continues without interruption and with increasing vigor from September until June. Summer Flowering Bulbs

OUR IMPROVED
Lily of the
Valley.

LILY OF THE VALLEY

Too well known to need any special description. Everyone knows their value for outdoor blooming, but all do not realize that their sprays of fairy bells can be obtained in winter just as easily. If you wish them for Easter, start them in February. We can supply the bulbs all winter. Price, 5 cents each; 50 cents per dozen.

CINNAMON VINE

Perfectly hardy, the stem dying down every autumn, but growing again so rapidly in the spring as to completely cover any trellis or arbor very early in the season. It is produced from tubers that will make from ten to twelve feet of vine, having beautiful, heart shaped leaves, bright green, peculiar foliage, and clusters of delicate white flowers, sending forth a delicate cinnamon odor. Price, 10 cents each; three for 25 cents.

MONTBRETIAS

The Montbretias are one of the brightest and best of summer-flowering bulbs, and it has been a matter of wonder to us why they are not more generally used. We feel sure that if once tried they would become firm favorites. The bulbs should be planted from April to June in clumps or groups of three to a dozen or more. They are perfectly hardy, and once planted can be left to care for themselves. In growth they resemble the Gladioli, and produce spikes of the most brilliant flowers in the various shades of orange, yellow, red, etc. Price, 5 cents each; 40 cents per dozen.

GLADIOLUS

Mixed—Our mixed Gladioli embrace a magnificent variety of beautiful colors, all the poorer sorts having been discarded and their places filled with "Lemoins," "Childsii," "Groffs," and our own best mixture. We trust that many of our friends will avail themselves of these very low prices to plant largely; the spikes of bloom, richness and brilliancy of color are out of all proportioned to the trifling cost. Price, extra fine mixed, of all colors, three for 10 cents; 30 cents per dozen or \$2.00 per hundred postpaid; by express \$1.75 per hundred.

Gladiolus.

MADEIRA VINE

A rapid growing vine, covering a large space in a short time. Fleshy, heart shaped leaves of a light green, and numerous racemes of feathery flowers of delicious fragrance. A beautiful and popular vine. Price, 5 cents each; 50 cents per dozen.

BLACK CALLA

Dragon Arum.

This plant has the honor of producing the largest flower of any plant that is hardy in this country. They are simply enormous. The leaf, stems and flower stock are all spotted; upon the top of the latter opens a flower of gigantic size and curious color. On the outside it is of a light green color, while the inside is of a deep red purple, glistening beautifully in the sun with a satin sheen. The spadix in the center of the flower is of a glossy, purple-black color. Price, good bulbs, 20 cents each; extra large bulbs, 40 cents each; three for \$1.00.

CALLA RICHARDIA

(Spotted Calla.)

The Richardia Alba, or Spotted Calla, is a plant of magnificent appearance. The leaves are of the richest green, spotted with pure white. The flowers are white, with a rich chocolate throat. It can either be grown in a pot, planted in a border, or in a vase or rustic stand, the latter being a very effective way of showing its beauty. Price, 15 cents each; large bulbs, 25 cents each.

CALADIUM ESCULENTUM

(Elephant's Ear.)

Very effective and suitable for either a single plant on the lawn, masses in beds or margin of water. Its very distinct leaves often attain the length of three feet by twenty inches wide, and have a rich, tropical effect. The growth is very rapid, and the ground must be made rich. Watering in dry seasons will help develop large leaves. Bulbs can be stored in dry sand in Winter and kept from year to year. Price, 15 and 25 cents.

FANCY LEAVED CALADIUMS

A fine decorative plant for the conservatory or open ground. The leaves are not quite so large as Elephant's Ear Caladium, but beautifully variegated, striped and mottled with crimson, sea-green, yellow and violet-pink. Plants are grown from bulbs which should be started into growth in the Spring, dried off in the Fall and kept in the warm until Spring again. We offer bulbs from a select list of the best named varieties. Price, 20 cents each; three for 50 cents.

AMARYLLIS JOHNSONII

One of the most gorgeous bulbous plants grown. We have seen specimens of a few years' growth that completely filled a window. Nothing is more showy than this grand plant during late Winter or early Spring, bearing large flowers of intense crimson with a delicate white feather in each petal. It is most superb. Price, 35 cents each.

AMARYLLIS EQUESTRE

Valuable for house, conservatory or garden. The flowers are a bright salmon-pink, with a distinct snow-white blotch at the base of petals. After blooming season withhold the water and allow the bulb to dry, then put it in some cool, dry place for a season of rest. Price, 20 cents each.

The Yellow Calla—Calla Hestata. Flowers the same shape as the White Calla and growth a little dwarfer. Color a clear lemon yellow. Price, 15 cents each; two for 25 cents.

DWARF CALLA "GEM"

Having given it a fair trial with the ordinary variety known as the Calla Lily the only objection to the old variety is that it sometimes grows tall and scraggy; but the "Gem" is of strong and dwarf habit. The foliage is of a lustrous dark green, is produced in great abundance. Its flowers are produced in the greatest profusion, being literally an ever-bloomer. Price, 15 cents each; two for 25 cents.

McGREGORS' SELECT HARDY FLOWERS

Hardy perennials are those plants which die down in winter, but start again in the spring from the root, lasting many years and flowering every year. Never before have they been so popular, and from present indications of a desire for hardy plants, the demand for them will continue to increase, which will make them as popular in the United States as they have been in the horticultural centers of Europe for many years. Some are very useful for screens, some for hedges, rockeries, steep banks and terraces, others for bedding, edging and bordering and cemetery planting; then again others are fine for cutting to be used as table decorations. Cultivation is of the simplest, beginning with any good garden soil for a foundation, which may be enriched with any good fertilizer, such as well decomposed manure or bone meal, deeply dug, well pulverized, in which the plants should be set as early in the season as possible, so as to enable them to become well rooted and established before hot, dry weather sets in, keeping the ground well stirred, and where it is not convenient to water the beds during hot, dry weather, a mulch of any loose material which will keep the soil from baking will be found beneficial.

VALUABLE STRAWBERRIES

FOR THE HOME GARDEN
LARGE, LUSCIOUS BERRIES

MARIE STRAWBERRY

Beyond doubt the most prolific and profitable berry in existence today. In yield we will put it up against any new or old variety. In point of beauty and general appearance when placed on sale it has no equal. The plants are good growers, making plenty of runners for a good crop and show no signs of disease. The blossom is imperfect; season same as Bubach and Haverland. Equally as large as Bubach, Glen Mary or Brandywine, and yielding with any variety in our 40-acre fruit plantation, besides it is the most attractive in appearance when picked and ready for market of any in our entire collection. The berries are round as a ball, dark crimson in color; flesh dark and quality first-class, holding up in size to the very last pickings. Price, 50 cents per dozen, postpaid; \$1.00 per 100, by express; \$3.00 per 1,000.

PINEAPPLE

(Per.) This new variety of Strawberry will undoubtedly please every one who tries it because it has so many good qualities it cannot help but please. It has a rich pineapple flavor. Think of it. Strawberries, Pineapples, could there be a more luscious combination of flavors. It is within itself a three-fold pleasure, viz., to look upon, to smell and to eat. A vigorous grower; berries large size, round and well shaped, beautiful crimson color, about same firmness as Haverland; a perfect bloomer and an abundant bearer, valuable, alike for both home garden and market. Its great beauty and decided pineapple flavor make it a variety that commands a higher price on the market than the ordinary Strawberry. Price, 50 cents per dozen, postpaid; \$1.00 per 100; \$3.00 per 1,000.

Pine Apple.

SENATOR DUNLAP

(Per.) A well tested, wonderfully-productive variety, one of the safe sorts to plant everywhere and sure to take a high place among the prominent standard sorts. Plant resembles Warfield, rampant runner, should be restricted in its production of plants, fully equal to Crescent and Warfield in its ability to succeed under all circumstances. Fruit good size, regular form, beautiful bright red, glossy, firm, splendid keeper and shipper, excellent quality; one of the best for canning; ripens early and continues a long time. It promises to stand at the head in its wonderful ability to ripen a good crop under almost any condition of drought or neglect. Price, 25c per dozen, postpaid; 75c per 100; \$5.00 per 1,000.

CURRENTS

Fay's Prolific—Perhaps no other currant has received so much praise as has Fay. It is very large, and always sells well and at high price. Yet the Fay is not universally popular, as it does not seem to do well in all parts; in fact, some rather condemn it. We consider it does better on heavy clay soil, well manured and thoroughly cultivated, than on lighter soils. Price, 15 cents each; \$1.50 per dozen.

Wilder—A remarkable variety both for table and market. Bush and berries very large; a strong grower, wonderfully prolific. Try it sure. Price, 15 cents each; \$1.50 per dozen, by mail postpaid.

FLOWER SEED DEPARTMENT

MCGREGOR'S SELECTED FLOWER SEEDS

We have used the greatest care in obtaining our flower seed, and those we offer you are absolutely fresh, being grown under our personal supervision or imported from the best foreign seed growers. Failure in getting satisfactory results from seed planting may be attributed to the manner in which the seed is sown, rather than the lack of germinating power in seed, and seedsmen are unjustly censured when the fault lies in the cultivator and not in the seed.

Sowing of Seeds—Spade the soil in the seed bed to a good depth, work it over and over with the spade in order to mash the small clods. Sow the seed in drills or broadcast, according to the kinds, covering carefully and lightly, there being more danger in covering too much than not enough. Never allow the seed to remain in dry soil.

For seeds that require an early start, to secure blooms before frost, sow in shallow wooden boxes—in good garden soil. Cover seeds very lightly, keeping the box in a sunny window, covering the box with a pane of glass until the seeds begin to sprout, but never allow the soil to become too dry.

Transplanting of Seedlings—Do not allow the little plants started in the boxes to grow too tall before transplanting. Care should be used in watering the seedlings well after planting and to protect from the sun for a few days with light paper.

Flowers from seed are usually known as Annuals, Biennials and Perennials.

Annuals bloom and ripen seed the first year and then perish.

Biennials do not generally flower the first season and are in perfection only one year.

Perennials continue to flower several years in succession. Many of them bloom the first year if sown early.

FLOWER SEED

NOVELTIES FOR 1906

A Selection of the Most Worthy
of the New Introductions

MAMMOTH BUTTERFLY PANSIES

The most skillful seed growers are constantly using their best efforts to improve the ever popular flower, the Pansy, or Heartsease as the Germans call them. Their latest achievements seem impossible to improve. Instead of the plain little self-colored Pansies of former days we now have a flower larger that would cover the top of an ordinary coffee cup, each petal fluted and ruffled and beautifully veined, shaded and blotched with several rich and brilliant colors, exquisite combinations of every color in the rainbow. This is the Mammoth Butterfly Pansy. Their large fluted and spotted wings seem to flutter in the sunlight like real mammoth butterflies. Try them, you will not be disappointed. Price, 25 cents per packet.

GIANT PEACOCK PANSIES

A most unique and striking variety of Pansies which have, within the past two years, been greatly improved. They are extra large and of fine full form. This improved strain is truly gigantic. Color a beautiful ultra-marine blue in the upper petals, and the lower petals a rich wine red edged with cream white. Truly exquisite in color combination. Price, 25 cents per packet.

The Butterfly Pansy.

SPECIAL OFFER—One packet each of Peacock
and Butterfly Pansies for 40 cents.

New Double Paeony Flowered Poppy "ARIEL"

The most unique Poppy ever introduced.

The flowers are immense and very double. The fluffy-fringed ball in the center is composed of petals which are glistening silvery-white at the base, shading to brilliant salmon-red. The four large petals which support the feathery ball are broad and expanding, tinted with salmon, and having at the base of each petal a most beautiful spot of bright heliotrope or lavender. The effect is surprising, and the combination of color so novel that the flower is quite curious and wonderful. Price, 20 cents per packet.

New Double Chrysanthemum Flowered Sun Flower

Grows seven feet high. Perfectly double; the color is the brightest golden yellow. The flowers are so perfect in form that they resemble very double Chrysanthemums six or eight inches in diameter and densely double, each petal being deeply fringed. Blooms profusely. Price, 15 cents per packet.

New Carmine Tuberose Flowered Tobacco, Nicotiana Sanderae

Truly the finest novelty of recent years. This hardy plant, with its rosy-carmine flowers, produces a startlingly beautiful effect in the garden. Such an intensely glowing rosy-carmine color is unknown in any plant of similar character; and either in flower beds, shrubbery borders, or in the wild garden—in fact, in any position among annuals of any color or kind of foliage, whether in the background or in the open, this incomparably beautiful plant is charming. Bushy habit, about two feet high, producing thousands of blossoms. It is as easy to grow as a Petunia. If started indoors in early spring and planted out in May it gives a continuous display of blooms all summer and autumn. It can also be sown in the open ground when the weather becomes warm. Price, 25 cents per packet.

Nicotiana Sanderae.

SEVEN SELECT NEWEST SWEET PEAS

In offering for the first time this "Dainty" collection of Sweet Peas, we can safely recommend them as the finest varieties in all respects ever grown. You will be surprised by their size, brilliancy and sweetness.

DAINTY

This unique new Sweet Pea has created quite a furore in England as well as in America. Flowers are of largest size and splendid substance, while they are borne three and four, set well at the end of long stout stems. The beautifully formed flowers, upon first opening, appear to be white, but quickly change to white with pink edge, making a most charming contrast. Price, 10c per pkt.

MISS WILLMOTT

The extra large standard measures one and one-half to one and three-quarter inches across, and is of the richest orange-pink, delicately shaded rose; wings also orange-pink. The enormous flowers are borne erect upon stiff stems from twelve to sixteen inches long. Superior both in size and richness of coloring. Price, 10 cents per packet.

MAJESTIC

Borne almost uniformly three on a stem, and all facing one way; the flowers are of largest size and perfect form, slightly hooded. Standard is a deep rose-pink, while wings are also deep rose, but rather softer in tone. Price, 10 cents per packet.

WHITE WONDER

The flowers are pure white, uniformly of the largest size, and are frequently borne six to eight on a long stout stem. The flowers are well placed near top of stem and generally all facing one way. The vines bloom profusely, being of unusual vigor. Price, 10 cents per packet.

KING EDWARD VII.

The best red Sweet Pea up-to-date. Such is the verdict with which we are inclined to agree. The magnificent large flowers are of open form, with a well-shaped round standard. Color a rich blood scarlet, which does not change in strong sunshine. Most gorgeously brilliant in flower, and a strong grower. Price, 10c pkt.

GOLDEN ROSE

The flowers are extra large in size, of fine open form, with standard gracefully fluted. The ground color is a clear primrose-yellow, beautifully flushed with rosy pink—making a color combination which is most attractive. Price, 10 cents per packet.

MAID OF HONOR

The flowers are beautifully shaded with light blue on a white ground and edged with narrow border of deep rich violet; very dainty and strikingly beautiful. Price, 10 cents per packet.

SPECIAL OFFER—The "Dainty" Collection of one packet each of Dainty, Miss Willmott, Majestic, White Wonder, King Edward VII, Golden Rose, Maid of Honor, for 40 cents; 7 packets for 40 cents.

and have close round heads. They are extra quick growing, very tender and succulent, entirely free from woody fiber, and make shoots fit for market in a single day. Price, 5 cents per packet; 10 cents per dozen.

Sow in early Spring in drills two inches deep and one foot apart between rows. After the plants are one or two years old transplant them into permanent beds. Set them 15 inches apart each way and cover four inches deep. Manure plentifully each fall, to be forked in very early in the spring, after which sow on a good dressing of salt. One ounce to 50 feet of drill.

Barr's Mammoth.—The very best garden variety. The stalks are very large, frequently an inch in diameter, with few scales; the stalks retain their thickness completely up to the top of the shoots,

BUSH OR SNAP BEANS

Bush Beans may be had in fine condition throughout the season by planting at intervals of two weeks, from the beginning of May until the middle of August; they should be planted in drills three feet apart and one inch deep.

Giant Stringless Green-Pod.—For either the market or home garden, no other green-podded bean is so satisfactory, while by frequent plantings fine pods may be had in constant succession from spring until cut off by heavy frosts in the fall. The pods are tender, brittle, and of finest flavor, always entirely stringless even when fully matured. In a word, all seedsmen and planters now agree that Giant Stringless Green-Pod is absolutely unequalled. Price, 5 cents per packet of 75 seeds; 30c per pint, postpaid; 20c per pint, by express.

Improved Golden Wax.—Pods rather flat, four inches in length, half an inch broad, of light golden-yellow; quite brittle, with only slight strings when young. Plants stiffly erect, bearing a large crop of fine pods held well above the soil. A fine, well-known, standard variety, absolutely rust proof. Price, 5 cents per packet of 75 seeds; 30 cents per pint, postpaid; 20 cents per pint, by express.

Golden Wax.

DWARF LIMA

The Dwarf Lima Beans are as large as large Pole Lima, strictly dwarf, come true from seed; stout growth, always erect, branches vigorously bearing and large pods being well filled with very large beans, identical in size and luscious flavor with the well-known Pole Limas. Price, 5 cents per packet of 30 seeds; 30 cents per pint, postpaid, or 20 cents per pint, by express.

POLE BEANS

Old Homestead or Kentucky Wonder.—This most popular variety is an improved large-podded strain of the Southern Prolific. The pods, usually seven inches or more in length, are so fleshy that they are greater in width than breadth, being deeply creased or "saddle-backed." They are solidly meaty, stringless when young, and of finest quality. Price, 5 cents per packet of 50 seeds; 35 cents per pint, postpaid, or 25 cents per pint, by express.

POLE LIMA BEANS

New Dry Weather Cauliflower.—It is especially adapted for growing in dry locations where other varieties fail to produce heads; to secure the best heads, it is essential, however, to make soil quite rich and give thorough cultivation, so as to induce a strong rapid growth. While especially adapted for growing in dry locations, it will produce heads equally as fine as the best varieties in more favorable situations. Produces large, solid pure white heads. Price, 20 cents per packet.

CELERY

One ounce will sow a bed of 9 square yards and produce about 2,500 plants.

Celery is generally grown as a second crop, following early cabbages, onions, peas, etc. The proper time to sow is early in April, transplanting about the first of June. Set in rows 3 feet apart and about 6 inches between plants in the row.

Golden Self-Blanching.—A fine, solid variety on the style of White Plume, except that it is golden-yellow where the Plume is white. It is of a dwarf, compact habit, with thick, solid, heavy ribbed stocks, which blanch easily to a clear waxen yellow. 10c per pkt.; 35c per ounce.

Golden Self-Blanching.

CABBAGE

Short Stem Late Drum-Head Cabbage.

The ground must be highly manured, deeply dug or plowed, and thoroughly worked to insure good, full-sized heads. A heavy, moist and fresh loam is the most suitable. Sow early in the Spring in hotbed, or later in open ground. Plant out 18 inches or 2 feet apart. Late varieties are usually sown by the middle of May and the plants set out in July, in rows 3 feet apart, and 2 feet apart in the rows. One ounce will produce 3,000 plants.

Selected Early Jersey Wakefield—The Early Wakefield is the standard early Cabbage in all the northern markets, a larger acreage of it being planted than of all the other early sorts combined. It is the hardiest and hardest heading of the extra early sorts, and most northern gardeners depend upon it for the bulk of their first crop. A fine solid pointed head. Price, packet, 5 cents; ounce, 25 cents.

All-Head Early—The earliest of all large Cabbage, being nearly as early and fully one-third larger than the Early Summer, and therefore much more profitable to the market gardener. They are remarkably solid and uniform in color as well as in shape and size. Price, 10 cents per packet; 35 cents per ounce.

Short Stem Drumhead—(Late). This is the finest late variety on the market for Fall and Winter use; heads hard and solid, large and heavy. Very popular with Germans for kraut. Price, 10 cents per packet; 30 cents per ounce.

The True Danish Ballhead Cabbage—It is highly esteemed for Winter use by reason of the great solidity and excellent keeping qualities of the heads. Price, 10 cents per packet; 35 cents per ounce.

CUCUMBERS

Cucumbers succeed best in warm, rich, loamy soil. As soon as the weather becomes warm and settled, plant in hills four to six feet apart each way; with 10 to 12 seeds in a hill; cover one-half inch deep. When all danger from insects is past, thin out the plants, leaving three or four of the strongest to each hill.

Everbearing—This is not only a very early variety, but is also extremely prolific. If the fruits are kept gathered vines will continue in bearing throughout the season. The fruits, of medium size, and rich, dark, green color, average from four to five inches in length by an inch and a half in diameter. Owing to its great productiveness, it is an excellent variety to plant for producing small pickles. Price, 5 cents per packet; 25 cents per ounce.

Improved Arlington White Spine—The Cucumbers are very regular in outline, uniform in size, averaging seven to eight inches in length, straight and of a rich dark green color. They present the finest appearance in market, and, of course, like all of the true White Spine type, never turn yellow; the light stripes, or "white spines," running from blossom end, only add to the attractive appearance of the older fruits. Flesh white, crisp and solid, with comparatively few seeds; flavor excellent. Very productive and early. Price, 5 cents per packet; 25 cents per ounce.

London Long Green—The largest long green variety grown. Splendid fruit, smooth and firm. Price, 5 cents per packet; 25 cents per ounce.

CARROTS

The Carrot, like other root crops, flourishes best in a well enriched, sandy soil, deeply tilled, and if plowed the Fall before, all the better. Sow in early Spring in drills 15 to 18 inches apart, finally thinning plants to 3 or 4 inches; keep clean by frequent hoeing and weeding; if neglected, the young plants are easily smothered, and the crop is lost.
